Response to Arguments

Applicant's arguments filed 3/22/06 have been fully considered but they are not persuasive.

Claims 1 – 7 are still not enabled. The Examiner is not contesting the established “receiving” (by a receiver) and “calculating” (by a calculator) steps are not supported by ¶¶ 0042, 0046 – 0049, and 0051-0069. What is still missing is *how* those steps are carried out to achieve **locating the object**. Assuming utilizing inverse multilateration involves “receiving” (by a receiver) and “calculating” (by a calculator), the intended purpose of locating an object is not achieved. In view of such, it is still the Examiner’s position “undue experimentation” is required; the skilled artisan would still not know how to make and/or use the invention.

The rejection is maintained.

Claim Rejections - 35 USC § 112

Claims 1 – 7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. In claims 1 - 7, there are no established steps supporting ‘locating an object utilizing *inverse multilateration*.’ It appears undue experimentation is required causing the skilled artisan to not know as to how to use and/or make the invention the claimed invention.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
